

UCOTILE-HD

POLYMER MODIFIED TILE ADHESIVE

ST-171

Product

UCOTILE-HD is a single pack ready to use waterproof ceramic tile adhesive.

Composition

UCOTILE-HD is a blend of specially selected polymers, cement and filler.

Description

UCOTILE-HD is ready to use excellent water proof tile adhesive used for permanent fixing of ceramic tiles requires only addition of water.

Benefits

1. Excellent Bond.
UCOTILE-HD ensures excellent bond on concrete, plastered and even on smooth surfaces like tile on tile, mosaic tile surfaces.
2. Economy
UCOTILE-HD is ready to use with conventional masonry tools. It requires only addition of water eliminates site mixing of cement and aggregates.
UCOTILE-HD is to be applied at the thickness of 3 mm to 4 mm which reduces saving in time and labour.

Technical Data

FormPowder
ColourGrey
W/P Ratio..... 0.3

Advantage

- Excellent adhesion to smooth surfaces
- Good water proofing characteristics
- Ready to use
- Easy to apply with conventional tools
- No curing required
- No soaking of tiles required
- Cost - effective

Purpose

- For permanent fixing of tiles.
- To fix tile on tile.

Where to Use

- For fixing of all ceramic tiles
- Tile on tile
- Acoustic and insulating board
- Swimming pools

Method of Use

The substrate should be sound, clean and free from contamination. UCOTILE-HD should be mixed with water in the ratio of 3:1 by volume. Mix thoroughly to form a creamy mortar. Apply this mortar at 3mm to 4mm uniform thickness.

Remove excessive material with a damp cloth before material has set.

Coverage

One 25 KG pack will cover 6 m² - 7.5 m² with 3 mm to 4 mm thickness

Packing

UCOTILE-HD is supplied in 25 and 50 KG PVC Laminated paper bags

Storage

- UCOTILE-HD has a shelf life of 12 months from the date of manufacturing, if stored as per manufacturer's instructions & in manufacturer's original unopened packing.
- Keep away from direct sunlight and store in dry & shade.
- Protect from freezing and moisture.

Handling Precaution

- UCOTILE-HD is an industrial chemical; required handling precautions should be followed.
- UCOTILE-HD is non-flammable and doesn't contain any flammable ingredient.
- UCOTILE-HD is non-hazardous, however inhalation of its dust particles should be avoided. Use of facemask is recommended.
- Prolonged contact with skin should be avoided. Use rubber gloves and boots, when working overhead, goggles should be worn.
- Contact with eye should be avoided. If in contact with eye, wash with water and take medical advice immediately.

Important Note:

All products should be used in accordance with manufacturers instructions. Every effort is made to ensure that the information is reliable, however we do not accept any responsibility for any work carried out with our material(s) as we have no control over the method(s) used for application, site conditions, weather conditions, etc.
