

## UCOREADYPLAST

CR-157

### Ready Made Cement Plaster / Mortar

#### Product

UCOREADYPLAST is ready to use mortar needs only water addition

#### Composition

UCOREADYPLAST is a factory controlled mixture of OP cement well graded sands and special additives

#### Description

UCOREADYPLAST is a high quality ready to use mortar / plaster for all purpose consisting 53 grade OPC and well graded Sands with admixtures & Specialize additives to achieve following properties.

1. Economy

UCOREADYPLAST gives less rebound loss with greater bonding properties and good workability with excellent coverage rate. Thus reduces wastage & increases coverage compare to site mixing.

2. Time Saving

UCOREADYPLAST enables increased rate of production with less wastage that in turns saves time in construction work.

3. Quality Assurance

UCOREADYPLAST is made from grade OPC with high-purified sand with perfect grading gives consistent quality compare to site mixed mortar. Thus eliminates poor quality plastering.

#### Technical Data

Form ----- Powder

Colour----- Grey

Composition----- OPC + Sand

#### Advantages

- High quality plaster
- Economical and ready to use
- Saves labour cost and time
- Eliminates poor mix or useful for external and internal plastering
- Allows water reduction compare to site mixes
- Rapid placing, better finish
- Reduces rebound loss
- Increases yield saves money

#### Purpose

- To produce increased rates of production
- To save labour cost and time
- To eliminate poor mixing or error at site

#### Where to Use

- All type of plastering
- External, internal rendering
- Wall plastering, Brick mortar

### Method Of Use

UCOREADYPLAST is ready to use mortar, only addition of water is required for the desired consistency and water should be directly added to the any mix. Mix thoroughly and apply as conventional mixes. No extra mixing or procedures required for plastering with UCOREADYPLAST.

### Coverage

One 50 KG bag will cover to mm<sup>2</sup> with recommended thickness of 10 mm.

### Packing

50 KG woven sacks

### Storage

- UCOREADYPLAST has a shelf life of 12 months from the date of manufacturing, if stored as per manufacturer's instructions & in manufacturer's original unopened packing.
- Keep away from direct sunlight and store in dry & shade.
- Protect from freezing and moisture.

### Handling Precaution

- UCOREADYPLAST is an industrial chemical; required handling precautions should be followed.
- UCOREADYPLAST is non-flammable and doesn't contain any flammable ingredient.
- UCOREADYPLAST is non-hazardous, however inhalation of its dust particles should be avoided. Use of facemask is recommended.
- Prolonged contact with skin should be avoided. Use rubber gloves and boots, when working overhead, goggles should be worn.
- Contact with eye should be avoided. If in contact with eye, wash with water and take medical advice immediately.

### Important Note:

All products should be used in accordance with manufacturer's instructions. Every effort is made to ensure that the information is reliable, however we do not accept any responsibility for any work carried out with our material(s) as we have no control over the method(s) used for application, site conditions, weather conditions, etc.
